INTRODUCING

THE 3RD GENERATION KIBO K160E - EVOLUTION

Evolved features, evolved performance, cutting-edge technology, and sleek looks to match.

The Kibo K160E design is optimized for the ever-evolving urban lifestyle.

This is a fun and agile motorbike that meets the needs of your aspirations as a city rider.

From the sporty design that complements your drip to the powerful yet efficient 160cc engine that owns the streets, the K160E allows you to show out whenever you show up.

Practical, convenient, stylish, and a pleasure, the K160E fits your adventurous urban lifestyle while inspiring you to live up to its creed

The Only Way Is Forward.

Powerful

With an 11.7HP at 6,500 rpm power output and 200kg load capacity, the Kibo K160E is built to keep you cruising effortlessly.

Safe

17-inch cast aluminum front and rear wheels fitted with 70/30 or optional 50/50 ON/OFF road tires deliver the grip you want. Disk brakes with floating calipers on all wheels give you optimal stopping power.

Reliable

A 13.9 Nm torque at 5,400 rpm offers you all the pulling power you need to get out of any situation. Its air-cooled, single-cylinder engine is a perfect blend of power and efficiency with an average fuel consumption of 40km/ltr.

Stylish

This stylish addition to the second-generation 160 cc Kibo bike range, features the lowest ride height yet, resulting in a stable sportier ride. Pick your favorite tank size to match your needs and boost your style.

Lights & mirrors

The advanced LED indicators and cat-eye-shaped mirrors offer maximum visibility and sleek looks to match.

Handlebars

This evolved bike comes with narrower handlebars that make it possible to push through the air quicker and easier.

Suspension

The K160E is designed with a telescopic front fork, 192 mm travel suspension, and twin coil-over shocks, 140 mm travel. The upgraded lighter suspension gives the bike excellent shock-absorbing performance and stability

Brakes

The K160E is equipped with bigger-diameter front disk brakes that provide effective and consistent braking. This gives you better stability and control at all speeds.

Engine

The K160E comes with a 160 cc, 4-stroke SOHC internal combustion engine with a load capacity of 200kg. You can now cruise through the streets with confidence.
