

The 2nd Generation **Kibo K160R**

An aerial photograph of a winding asphalt road cutting through a dense, lush green forest. The road curves from the top right towards the bottom center. A few small vehicles are visible on the road. The forest is composed of various types of trees, including tall, thin evergreens and shorter, broader-leaved trees. The lighting is bright, creating a vibrant green scene. The text "Go do >>> more" is overlaid in white, sans-serif font in the center of the image.

## INTRODUCING THE 2ND GENERATION KIBO K160R

The motorbike that's built to keep you going. The 2nd generation Kibo K160R is packed with upgraded features for better performance. It comes with a bigger 10.4L tank with a consumption of 40km/l and an improved fuel petcock for better flow.

It is equipped with a bigger instrument panel and wider side mirrors for easier visibility as well as ergonomic handle bar switches and an upgraded clutch switch to prevent unwanted starting. The K160R offers more efficiency and a robust look that matches its high performance.

If you're looking for a machine that fulfils your personal, professional and leisurely needs, the K160R is the best of all worlds. Agile, comfortable, stylish and built to conquer any terrain.

Dubbed 'The Champ Reloaded' it is inspired by the winning spirit of the East African people. Resilient, reliable, hardworking and always going the distance.
