K250R

INTRODUCING

THE 3rd GENERATION KIBO K250R

The 3rd generation Kibo K250R offers more power, more range, more fuel efficiency, versatility and style with its bright orange exoskeleton frame and digital display.

Whoever you are and whatever you use your bike for, whether it's the daily commute through city traffic or weekend escape in remote terrain, the K250R allows you to Go Do More reliably.

The Kibo K250R is designed and built to withstand extreme terrain, with additional versatility and strength to comfortably carry a heavy payload.

It is our most powerful and fastest motorcycle – but one that is still grounded in our key design principles of Reliability, Efficiency, Stability, Safety and Comfort.

DESIGN

We have revolutionized the concept of mobility by making motorcycle transport safe and reliable, but also striking in visual appeal. Anchored on safety and reliability the Kibo K250R is designed and built to withstand extreme terrain, with additional versatility and strength to comfortably carry heavy payload.

Reflecting the needs and wishes of the diverse African motorcycle market, we have developed a bike that meets the latest design standards, offers more performance and exciting riding experience, the K250R will further enhance our vision in providing unique mobility solutions.

A CHASSIS IN A CLASS OF ITS OWN

The signature trellis frame is one of the cornerstones in the technical design of the K250R. The exclusive chassis is designed to optimize rigidity and maximize dynamic performance resulting in a stable ride whilst protecting internal bike components. The structure also serves as a platform for modular attachments and strapping of cargo.

go do >>> more

RELIABILITY

The Kibo K250R is a tough go-getter and a playful companion at the same time. It is a versatile bike for on and off road use. The K250R is built exclusively with strong and high quality components to offer a durable and lasting service. The K250R comes with a comprehensive after-sales service and warranty package.

ACCESSIBILITY

The Kibo K250R is designed to offer maximum performance, be it on rough and rugged terrain or smooth tarmac. You can conquer any terrain whilst comfortably carrying a heavy payload.

SAFETY

The Kibo K250R is designed to ensure that both the bike and rider can safely tackle the demands of everyday use. We also provide rider training as well as ISO certified accessories to ensure the rider, passenger, and cargo are always protected.

MORE MOBILITY

With the Kibo K250R you are guaranteed more ability. Whether you are weaving through traffic and crowded streets, cruising on the highway, or making a delivery to a remote location, the K250R will always keep you on the move.

ENGINE

250.2cc oil-cooled, single-cylinder engine, with an enhanced engine temperature regulation. Making it more efficient than the air-cooled engines without a radiator. It incorporates a balance shaft that significantly diminishes engine vibration, resulting in a smoother ride.

SUSPENSION

Progressive suspension, with adjustable preload on the rear shocks. It is designed with 215/140mm front and rear travel to offer a stable and comfortable riding experience on rugged terrain or smooth tarmac.

POWERFUL. EFFICIENT. DURABLE

GO DO >>> MORE

DUAL SPORT TYRES

The DOT approved tyres feature a unique tread pattern and special rubber compound allowing excellent grip, handling and durability. K250R is equipped with 21" front and 18" rear tyres designed for mixed all-terrain use. The tyres provide a smooth ride on road and great traction on trails.

SEAT

The dual seat provides ample space to accommodate an additional cargo of up to 250kg.

LIGHTS

Two impact-resistant lenses, housed in a strong metal case, form the vertically stacked twin headlights. Either headlight functions as a backup, which ensures that the rider is visible at all times. The K250R is equipped with LED rear lights and LED turn signal lights as standard.

THE 3rd GENERATION KIBO K250R

GO DO >>> MORE

DISPLAY

A crisp display that shows you everything you need to know in one quick glance; 8-bar fuel level indicator, battery voltage, speedometer & engine speed, trip/ service mileage, engine temperature, gear position indicator, clock and indicator lights.

BRAKES

The Kibo K250R features a 266mm front disc and 215mm rear disc hydraulic brake system, specifically developed to ensure Kibo's high load capability, enabling outstanding braking power.

USB PORT

The Kibo K250R is well equipped to serve the needs of the modern-day rider. With its dual port, 5V 2.1A USB charging system, you can plug and power your devices during those long rides.
